1. Introduction

The following is a summary of the tax treatment of an award of Restricted Stock Units (RSUs) made to you by Atlassian Corporation under the Amended and Restated 2015 Share Incentive Plan (SIP) (the "Plan"). This summary assumes that you have been resident in Australia during the lifecycle of the award.

The tax treatment as explained herein is intended as a guide only. It is limited to a general description of the national tax laws, and is not intended to address city, regional, or other local tax laws that may be applicable to you. It may not apply to your particular tax or financial situation, and we are not in a position to assure you of any particular tax result. Therefore, we recommend that you consult with your own independent tax advisor regularly to determine the consequences of taking or not taking any action concerning your shares, and to determine how the tax or other laws in Australia apply to your specific situation. This information was last reviewed in December, 2024.

This document constitutes part of a prospectus covering securities that have been registered with the U.S. Securities and Exchange Commission under the U.S. Securities Act of 1933, as amended.

2. Tax Overview

Award	• An award is a promise to receive Atlassian Corporation shares in the future. • You are **not subject to taxation on equity** at this point.
Vesting	• The date when you receive Atlassian Corporation shares. • You **are subject to taxation on equity** at this point. • Taxable income is calculated based on the fair market value (FMV) of the shares. • **Atlassian Corporation is responsible for reporting the income.** • You are also **responsible for reporting the income.**
Sale	• The date you sell Atlassian Corporation shares. • This event may generate additional income known as Capital Gain (CG), or a loss. • If there is a **Capital Gain** on the sale of shares, tax is due in the tax year of sale.

- You are responsible for calculating the tax and reporting this capital gain.

3. Tax Treatment

	Award	Vesting	Sale
Action required	No action required.	Pay any taxes due. Report the income on tax return.	Pay any taxes due. Report the income on tax return.
Income tax / Capital gains tax	No	Income tax payable at rates up to 45%.	Capital gains tax payable at rates up to 47%.
Employee social tax	No	Yes **Medicare Levy:** Uncapped flat rate of 2%.	No
Employer's social tax	No	No	No
Income tax withholding	No	No	No
Employee social tax withholding	No	No	No
Employee tax reporting	No	Yes	Yes
Employer tax reporting	No	Yes	No
Tax return deadline	By October 31 of the following tax year		
What documents do I need for my taxes	N/A	N/A	N/A
Foreign asset reporting	You should report any foreign assets above AUD 49,999 to the Australian Taxation Office (on Form Annual Income Tax Return) by October 31. The threshold applies at any time during the tax year. The deadline may be extended if filing through a registered tax agent.		

Income Tax - The rates set out in this guide are marginal rates. In the event that you are required to pay income tax on the value of your award, the amount of income tax you pay will depend on your marginal tax rate. Generally, the more you earn, the higher your marginal income tax rate.

4. Award

Will I pay tax when I am granted an award under the Plan?

You will not have to pay any tax at the time you are granted an award under the Plan.

5. Vest

Will I pay tax when my award vests?

The “market value” of the shares at the ESS deferred taxing point is determined according to the ordinary meaning of “market value,” as determined by the Company in accordance with guidelines prepared by the Australian Tax Office. Because the shares are publicly traded on a recognized stock exchange, the “market value” will generally be based on the closing trading price of the shares on the stock exchange on the applicable date.

Taxable income is calculated based on the fair market value (FMV) of the shares. The FMV is the closing stock price on the vest date.

Income Taxes

When your award vests, income tax will be triggered on the market value of the shares at the time of vesting at rates of up to 45%.

Social Taxes

Medicare Levy: When you receive your shares, you will be required to pay Medicare Levy on the market value of the shares at a rate of 2%.

Employees have ability to file post October 31 if using a registered tax agent.

Payment Method

The local company will not withhold any taxes on the award and it will be your duty to report and pay any tax due under the Plan in your tax return.

6. Reporting and Withholding

Set out below are the reporting obligations that you and your local employer will need to fulfill when you receive and/or sell your shares.

Your Employer will report:

- Any income tax arising on the vesting of the shares in the ESS Statement to the employee by July 14 of the following year.
- Any income tax arising on the vesting of the shares in the ESS annual report to the tax authorities by August 14 of the following year.

You will need to report:

- Any income tax due on vesting of the shares to the tax authorities in the annual tax return, due by October 31.
  Employees have the ability to file post October 31 if using a registered tax agent.
- Any social security due on vesting of the shares to the tax authorities in the annual tax return, due by October 31.
- Any capital gains tax due on the sale of shares to the tax authorities in the annual tax return, due by October 31.

Your employer will not withhold income tax and social insurance contributions due on the taxable amount at the ESS deferred taxing point (assuming you have provided your employer with your Tax File Number or Australian Business Number, as applicable).

It is your responsibility to report and pay any applicable income tax, Medicare Levy and surcharge due in connection with the RSUs.

If you sell the shares within 30 days of the original ESS deferred taxing point and if the assessable amount reported by your employer is not based on the sale proceeds, it will be your responsibility to determine the correct amount to include in your tax return and to pay income tax (and any Medicare Levy and surcharge) accordingly.

7. Sale

Will I pay any tax when I sell my shares?

As the calculation of capital gains can be complex and may be subject to certain exemptions, we recommend that you consult your personal financial/tax advisor.

When you sell your shares, the amount by which the sale proceeds exceed your cost basis in the shares will be subject to capital gains tax at a rate up to 47%. Your cost basis will generally be equal to the fair market value of the shares at the income taxing point. If the sale price is lower than the cost basis of the shares, you may realize a capital loss.

Included in this rate is a Medicare levy, taxed at a flat rate of 2% on any taxable gains on the sale of shares.

If the shares are held by an Australian resident employee for at least 12 months, tax will only be payable on 50% of the gain, after allowing for other capital losses.

Please note that if the shares are sold within 30 days of acquisition, income tax will be due on the sale proceeds less the price paid to acquire the shares (if any) and any incidental costs associated with selling the shares (e.g., broker fees). In this case, the income taxing point will be the date of sale instead of the date of vesting/exercise and there are no additional capital gains tax implications.

If the shares are not sold within 30 days of acquisition, capital gains tax will be due on the difference between the Market Value of the shares at the date of acquisition and any price paid to acquire the shares.

When you sell your shares, the local company will not withhold any taxes on the gains. You should report any gain or loss arising in your tax return for the tax year in which the sale took place.

If you sell your shares at a lower price, the difference between the market value at vesting and the sales proceeds will be a capital loss. Capital losses may be used to offset capital gains realized from the sale of similar securities (i.e., other shares or shares of other companies) in the same calendar year or in the three subsequent years, but cannot be used to offset other types of income (e.g., salary).

8. Additional Information

Exchange Control issues

There are no exchange control restrictions, but there is a reporting requirement to the Australian Transaction Reports and Analysis Centre (**AUSTRAC**) where funds equal to or greater than AUD 10,000 are transferred (see section 43 of the Anti-Money Laundering and Counter-Terrorism Financing Act 2006 (Cth) (**AML/CTF Act**). In addition, international funds transfers (regardless of the value of the funds transfer) are also required to be reported to AUSTRAC in certain circumstances (see sections 45 and 46 of the AML/CTF Act). If an Australian bank is assisting the participant with the transaction, the bank will file the report on the participant's behalf. If there is no Australian bank involved in the transfer, the participant will be required to file the report.

Foreign asset reporting

You are required to report any cash or share accounts held in a foreign institution where the value of the asset is more than AUD 49,999. The information must be submitted to the Australian Taxation Office (on Form Annual Income Tax Return) by October 31.

The threshold applies at any time during the tax year. The deadline may be extended if filing through a registered tax agent.

Tax deferral

The tax treatment assumes that tax deferral applies (i.e. no tax at grant) and that there are no transfer or disposal restrictions at vesting or exercise, as applicable.

Taxation Rules for Significant Shareholders

The taxation rules may be different for significant shareholders (i.e. owners of more than 10% of the company's equity); further advice is recommended.

Medicare levy

Please note the applicable capital gains tax rates displayed assume that you are earning taxable income above the Medicare levy threshold.

Disposal restrictions

To the extent that employees are restricted from selling the shares acquired on vesting because there is a holding lock and/or trading blackout period (and that restriction existed at grant of the award), the income taxing point will generally be deferred until those disposal restrictions are first lifted and employees are free to sell the shares. The amount subject to income tax will instead be calculated based on the tax market value of the shares at this time.

9. What are the tax implications if I am a mobile employee?

Please note: Atlassian does not withhold income tax on RSUs when they vest or when you sell the shares. You are personally responsible for determining the amount of tax due and timing of payment. Please refer to sections 5 and 6 for additional withholding tax details.

Moving to Australia

Please note: If the award was made to you before you started employment in Australia but vested while you were a tax resident of Australia, you will be subject to tax on **100% of the award** even though the award was granted to you before you came to Australia.

Being temporarily in Australia between grant and vesting

If the shares were awarded to you before you started employment in Australia and you were **only physically working** for a portion of the vesting period, you won't be subject to tax.

Leaving Australia

If the award was awarded while you were physically working in Australia and you have since left, you won't be subject to tax.

Please note: Any taxes will need to be reported and paid through the annual tax return.

If you are a **temporary resident of Australia or a 457 visa holder** at the taxation point, you will be subject to tax only on the **portion of the award** relating to time spent in Australia (generally calculated on the number of work days spent in Australia during the period from grant to vest as a percentage of the total days between grant and vest).

10. Sample tax calculation

The following is an example of the tax implications upon vesting of shares and subsequent sale of shares under the Plan. This example assumes:

- You were in Australia the whole time from grant to vest of the Restricted Stock Units (RSUs) award.
- An income tax rate of 45%.
- Social taxes of 2%.
- Capital Gains Tax of 47%.
- This example does not take into account any annual Capital Gains Tax (CGT) exemptions which may be available.
- Tax calculation is based on the currency in which the shares are traded and any subsequent currency conversion has not been applied.

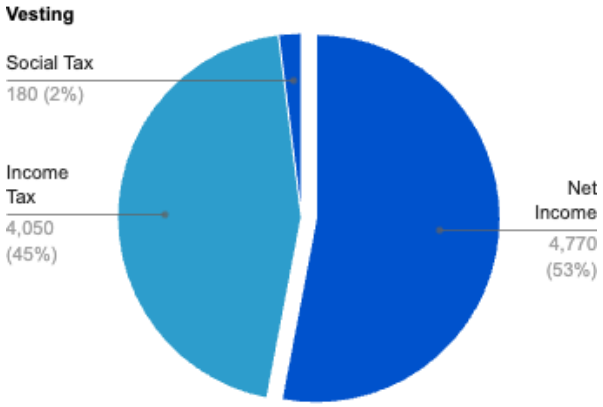

Tax implications

Award

No taxes due.

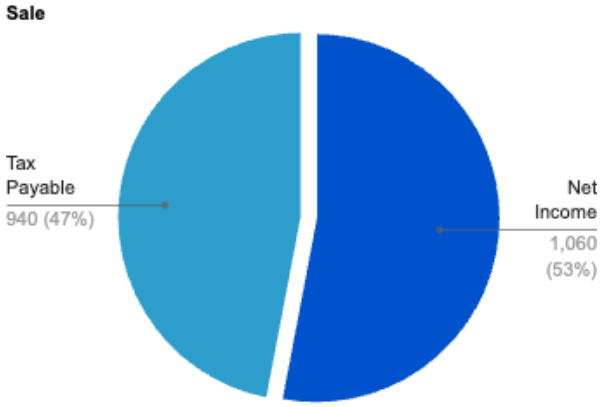

Vesting

Number of Shares Vested	A	100
Fair Market Value (FMV) of the Shares on Vesting	B	USD 90
Taxable Income	C	**A * B = USD 9,000**
Social Tax Rate	D	2%
Social Tax Payable by you	E	C * D = USD 180
Income Tax Rate	F	45%
Income Tax Payable by you	G	C * F = USD 4,050
Total Tax Payable by you	H	**E + G = USD 4,230**
Net Income	I	**C - H = USD 4,770**

Sale

Number of shares Sold	J	100
Fair Market Value (FMV) of the shares on Sale	K	USD 110
Sale Proceeds	L	J * K = USD 11,000
Less: Acquisition Costs		
Amount Previously Taxed	C	**USD 9,000**
Capital Gain	M	L - C = USD 2,000
CGT Rate	N	47%
Tax Payable	O	**M * N = USD 940**
Net Income	P	**M - O = USD 1,060**

** Please note the above is for information purposes only. Transaction fees may also apply and are not included.*
